

## FEATURES & BENEFITS

**Versatile:** BB50H finishes documents and calendars up to 20" in width.

**Productive:** High output speeds up to 1200 books per hour, depending on finishing type and operator skill.

**Easy to Use:** Automatically cuts wire to length, feeds and positions the wire for insertion.

**Adaptable:** Accommodates all Wire-O® sizes from 1/4" up to 1" in 3:1 and 2:1 pitch, using either spools or SnakeSkin™ Wire-O®.

**Skip Binds:** Able to skip Bind with or without calendar hangers .

**Hanger Features:** Optional Hanger Feeder is available which can take hangers from 4" to 16".

**Touch Keypad Control:** Most functions variable and keypad controlled including size, pitch, and format changes.

**Accessible:** All tool changes and adjustments made easily from front of machine.

**Efficient:** Finishes from economical Wire-O® spools. Automatic features reduce make-readies.

**Ergonomic Design:** Operator-friendly with large table-top working surface helps reduce fatigue.
