

FEATURES & BENEFITS

Efficient: Speeds of up to 10,800 sheets per hour with clean, perfect holes for finishing.

Convenient: Pick thickness of 0.4mm will maximize production and offer trouble free operation on a wide range paper stocks.

Punching Speed: 45 cycles/minute

Digital LCD: Touchpad control that is icon based for simple operation.

Versatile: Punches a wide variety of paper stocks, covers, and even tabbed sheets in sizes from 8.5" x 8.5" up to 11.8" x 11.8" while maintaining perfect pre-collated order.

Easy-to-Use: Hands-free operation allows you to simply load the tray, push a button and walk away - no special training or personnel required.

Unique Paper Handling: Positive sheet pickup with beak and paper jogger for perfect punching registration.

Ergonomic Design: All operations, including punch die changes, can be completed quickly and easily from the front of the machine.

Punch Die Patterns: Wide choice of round and square hole punching dies including Wire-O® wire, Plastic Coil, Plastic Comb, VeloBind®, 3-ring binder, etc.

Compact: Small footprint without compromising on power and quality.

MINI

Automatic Punch

The new **James Burn DocuPunch® MINI** automatic punch will revolutionize finishing operations in the copy center environment. With the ability to automatically punch up to 11,000 sheets per hour, this machine offers incredible labor savings with a quick ROI. The MINI is the first automatic punch available in a compact table top machine. It frees up your staff to handle other tasks while this automatic machine does the punching for them, saving you time and money. An optional mounting stand is also available.
