Proper Bolt Threading

spiral

Clamping Notepads

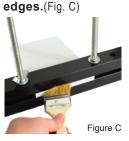

For thin stacks of notepads, lie clamp flat on it's side.(fig. A)

Insert binding edge of jogged pad into clamp, ensuring the edge is making full, flat contact with work surface.

3 Tighten wingnuts enough to hold paper firmly in place.

Flip Padding Clamp upright.(Fig. B) Apply a thin layer of padding compound with a brush, starting from the center and brushing towards the

6 Allow time to dry before adding more coats or releasing the Padding Clamp.

-For large stacks, place the clamp up against a flat surface.

-Add a 1" stack of paper or cardstock under the overhanging notepad stack.

-Place notepad stack inside clamp, flush with the flat surface.

-Tighten Clamp, turn clamped stack to expose edge to be glued.
