

Sliding cutter to make poly bags

- Ideal for high volume poly bag and other thermoplastic sealing
- Capable of 15-20 seals per minute
- Allows the user to keep both hands free for quicker and more accurate sealing
- Seal width – 3mm
- Plug in timer to control sealing time needed for different materials
- Impulse seal – timer will automatically turn off
- Consistently flat seal

More Details:

YC-Series foot sealers feature a sliding cutter and U-shaped sealing bar – an ideal sealer for poly tubing. The sealers are available in 18" and 24" with a cutting length of 15" and 21", respectively. The seal width is 3mm. The unit is equipped with a rectangular steel frame stand. The manufacturers replacement kit includes two elements and a knife.

Foot operated sealers are ideal for high volume poly bag and other thermoplastic sealing. This sealer is capable of sealing 15-20 bags per minute. A foot sealer allows the user to keep both hands free for quicker and more accurate sealing. The sealer is also equipped with a plug-in timer. The timer controls the sealing time needed for different materials. Once the timer is set, the sealer will provide a consistently flat seal.

Easy to operate.

Set the timer. Insert the bag between the sealing bars, press down on the foot board and release after the timer light turns off. For a better seal, hold the pedal down for an extra 2 seconds after the timer light goes off.

Specifications:

	YC-450FC	YC-600FC
Power Supply	110V / 450W	110V / 600W
Seal Length	17.7"	23.6"
