

## DATA SHEET

## GF NFD 207 7.0 MIL CLEAR STATIC CLING VINYL

GF NFD 207 is a 7.0 mil premium clear highly plasticized flexible calendered vinyl film which is laminated to a 90# lay flat liner. It is top coated with a cross-platform coating compatible with a wide array of narrow format production digital printing presses. The 90 # poly coated liner maintains lay flay characteristics in a variety of ambient conditions. GF NFD 207 is available in 19" x 13" & 29.5" x 20.5" sheet sizes.

| PRODUCT NAME                 | GF NFD 207                           |
|------------------------------|--------------------------------------|
| FILM                         |                                      |
| Film Type                    | Clear Static Cling (Monomeric) Vinyl |
| Film Thickness (mils/µm)     | 7.0 / 179                            |
| Film Weight (gsm)            | 220                                  |
| Gloss (60°)                  | 60                                   |
| LINER                        |                                      |
| Liner Weight (# / gsm)       | 90 / 145                             |
| Liner Type                   | White PE Coated Kraft                |
| Liner Thickness (mils / µm)  | 6.7 / 170                            |
| TOTAL CONSTRUCTION           |                                      |
| Thickness (mils / microns)   | 14 / 356 (+/- 10%)                   |
| Weight (# per 3000ft² / gsm) | 224 / 365                            |
| PERFORMANCE GUIDANCE         |                                      |
| Application Temperature      | > +40°F                              |
| Service Temperature          | 20°F to +200°F                       |
| Shelf Life                   | 6 months                             |
| Storage Temp / Rel. Humidity | 70°F / 50% RH                        |
| Outdoor Durability           | 3 Months                             |
