

CR-20 Round Cornering Machine

The Lassco Wizer CR-20 Desk Top Round Cornering Machine handles up to 1/2" of stock per cut. Your choice of one cutting unit radius: 1/8", 1/4", 3/8", or 1/2" is included. Additional cutting units can be added to machine to offer a variety of corner sizes. Special size cutting units are also available.

*Note: Capacity of cutting unit is dependent on material being cut and radius of cutting unit being used
