

POWIS | *fastback*® 20

Upgrade to Fastback® 20

The Fastback® 20 retains the simplicity and reliability of our Fastback® 15xs while incorporating many exciting new features:

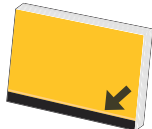

Self Training – Anyone can get great results on the first try with the new color LCD screen and animated instructions.

Eco Friendly – Super energy efficient. On average, uses 1/4* the energy of the model 15xs. USA made to high environmental standards.

Fast Warm Up time – Warms up in 3 minutes. 3x faster than the model 15xs.

Super Strong Binding – But gentle on covers! New feature allows for binding even the most delicate cover stocks without damaging color copies, vinyl, composition covers. . .you name it. Anything can bind without the potential for marks left from the heater as with model 15xs on heat sensitive materials.

Glossy Stock Binding – Improved ability to bind on many coated stocks and color copies with CP binding strips.

Splitter Compatible – Bind high end photobooks with Fastback® 20 and Fastback® Splitter.

Contemporary Design – Improved ergonomics of strip feed and book cooling rack.

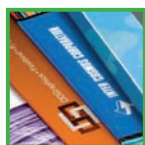

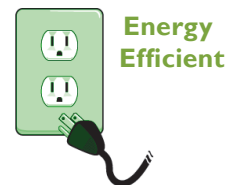

Image Strip Binding – Compatible with Image Strips for the ultimate in presentations with polished corporate identity.

* Compared to machines on for 8 hours and used 3 times a day to bind an average of 30 books.
