

FEATURES & BENEFITS

- In-line folding add-on to your existing creaser
- Supports heavier paper stocks
- Compatible with most creasing machine brands
- Automatic sheet set up with a single touch
- Supports perfect-bind covers
- An ideal companion to COUNT™ creasers (FC114, FC114 A, AccuCreaser, or EZCreaser)
- Compatible with almost any creaser - built-in micro-adjust feature compensates for variances in fold settings of different creasers
- User friendly touch screen for easy set up and control of the machine
- Keep paper feed aligned at all times with a simple adjustment control
- Clear top lid provides visibility and access to paper jams
- Innovative sensor at paper exit moves paper out of the way automatically keeping exit clear
- Comes with 6 pre-set folds; plus a custom option to accommodate almost any fold
- Components are strong and durable, yet up to 43% lighter than competitive in-line folders making it easier to handle & maneuver

Proximity Sensor

Knife Fold Chassis

Skew Adjust

The **COUNT™KF-200 Knife Folder** is the perfect companion to COUNT creasers for users who want to add in-line folding of digital media. It's also compatible with almost any other brand of creasing equipment, offering a micro-adjust feature to compensate for variances in fold settings of creasers from other manufacturers. This machine is ideal for use in applications with heavier stock (up to 350 gsm card stock) where standard bucket folders can't get the job done - the KF-200 gives you a clean fold without cracking or bending the stock.

The KF-200 is equipped with a variable speed output conveyor featuring a unique proximity sensor that detects movement and ensures the smooth even flow of folder paper onto the exit tray.

SPECIFICATIONS:

Model No.	KF-200
Paper Feed	Friction
Weight	224 lbs (102 kg)
Max. Speed	4,600 sheets per hour
Paper Weight Range	120 350 gsm
Dimensions	47" H x 28" W x 67" L (119.4 x 71.1 x 170.2 cm)
Max. Sheet Size	14.5" x 33"
Min. Sheet Size	4.75" x 5.5"
Electrical	110/220 V, 50/60 Hz
Made In	U.S.A
