

Count KF-250 Knife Folder

FEATURES & BENEFITS

- First and only automatic stand-alone knife folder
- Compatible with any existing creaser or multi-directional slitter/cutter/creaser
- Bottom vacuum-feed with built-in register guide
- Paper feed stays aligned at all times with fixed, factory set registry guide
- Clear top lid provides visibility & easy internal access
- Innovative sensor at exit tray moves paper out of the way automatically, keeping the exit tray clear
- Compatible with almost any creaser - built-in micro-adjust feature compensates for variances in fold settings of different creasers
- User friendly touch screen for easy set up and control of the machine

Bottom Vacuum Feed with Register Guide

Crease Options

(Plus custom options for almost any type of fold.)

The **COUNT™ KF-250** is ideal for anyone with an existing creasing machine or a multi-directional slitter/cutter/creaser. This machine is ideal for use in applications with heavier stock where standard buckle folders cannot get the job done. The KF-250 provides a clean fold without cracking or bending stocks up to 350 gsm.

The KF-250 allows you to keep the paper feed aligned at all times with the fixed, factory set registry guide. It features a bottom vacuum paper feed and a user-friendly touch screen control. Plus, the variable speed output conveyor features a unique proximity sensor that keeps the exit tray clear.
