POWIS | Super Strips™

BIND FASTER, STRONGER, BETTER

We engineered the adhesive and manufacturing techniques used on our Super Strips™ to provide the best binds in the business - bar none! Adhesives with specialized properties were developed to improve the binding function for different parts of each strip.

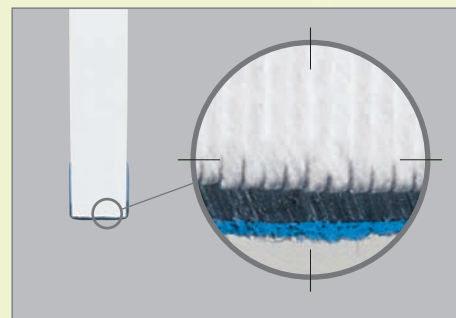

BIND 5X FASTER

Fastback binding is an easy one-step process — professional binding at the touch of a button. There's no punching or drilling of pages required. Document binding takes just seconds. Save time and increase your profits.

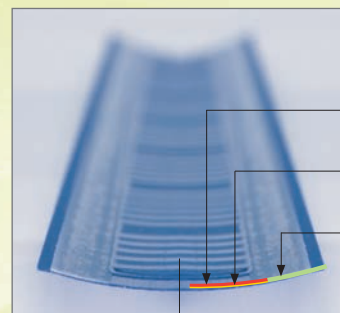

each stack of books took
15 minutes to bind

GREATER BIND STRENGTH

The secret of our amazing page strength is that each sheet is virtually locked into place from the sides, not just on the edge. The adhesive actually penetrates between and into each page. Our superior adhesive flow compensates for small sheet misalignments.

SPECIALIZE ADHESIVE PROPERTIES

3 specialized formulations are used to optimize strength, adhesion and bindability.

CENTER: formulated for adhesive penetration between each and every page

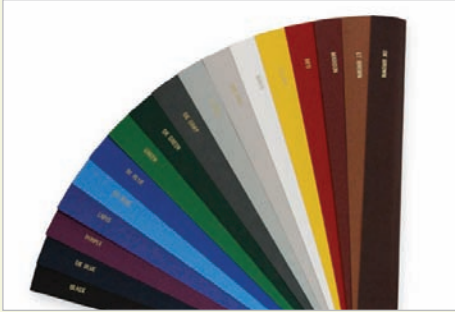

UNDER COATING: designed to provide the maximum spine strength possible

EDGE: specialized to give incredibly strong cover adhesion and to prevent seepage

Color code your documents with Fastback® SuperStrip™. Choose one color for reports, another for budgets, a third for plans. . .you get the idea. Use any covers, too. Paper, clear, plastic

Customize your documents even more with titles. The Powis Printer™ titles documents on demand, as you bind. Ask your authorized Fastback® dealer for details. Then, let your imagination run wild.

SUPER STRIP™ COLORS

Choose from a wide range of colors.

STRIP CAPACITY

Three different strip widths for binding from 10-350 sheets.

LAY FLAT

Documents lay flat.

SPINE TITLING

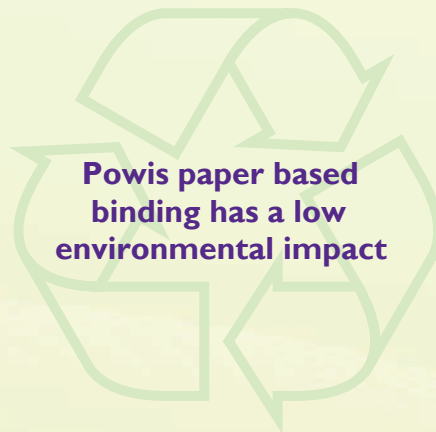

Print personalized foil spine titles on your desktop in minutes. The PowisPrinter prints several different foil colors.

BINDER COVERS

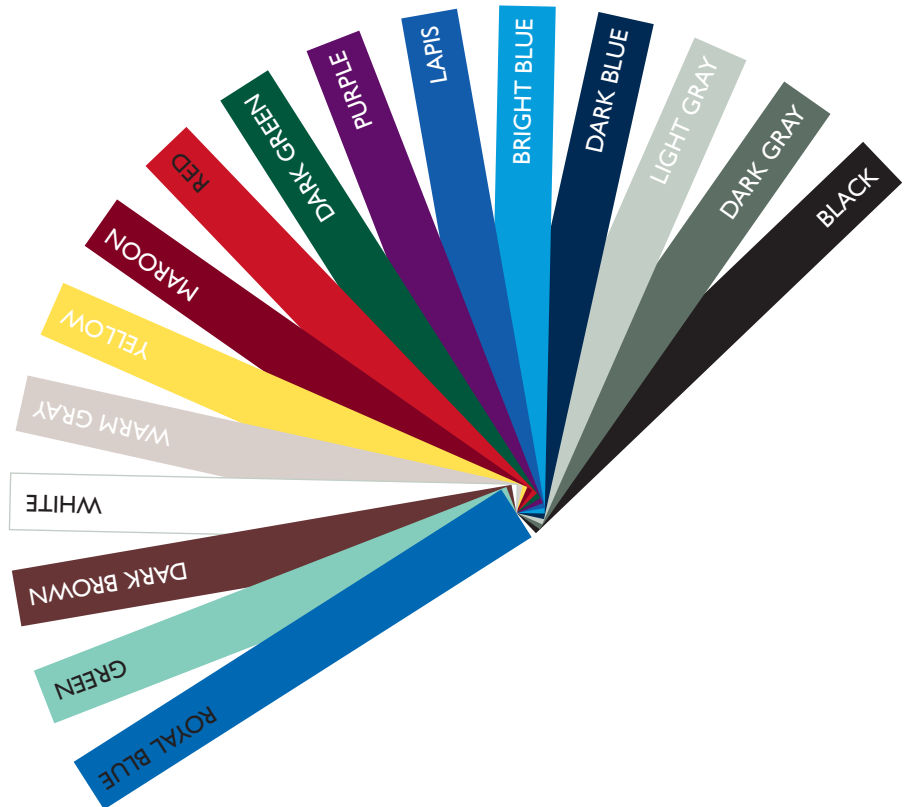

Choose from our selection of matching Binder Covers.
